RESOLUTION ADOPTED BY THE GENERAL ASSEMBLY

[on the report of the First Committee (A/47/680)]

47/43. Scientific and technological developments and their impact on international security

The General Assembly,

Recalling that at its tenth special session, the first special session devoted to disarmament, it unanimously stressed the importance of both qualitative and quantitative measures in the process of disarmament,

Recognizing that scientific and technological developments can have both civilian and military applications and that progress in science and technology for civilian applications needs to be maintained and encouraged,

Noting with concern the potential in technological advances for application to military purposes, which could lead to more sophisticated weapons and new weapon systems,

Stressing the interests of the international community in the subject and the need to follow closely the scientific and technological developments that may have a negative impact on the security environment and on the process of arms limitation and disarmament and to channel scientific and technological developments for beneficial purposes,

Emphasizing that the proposal contained in its resolution 43/77 A of 7 December 1988 is without prejudice to research and development efforts being undertaken for peaceful purposes,

/...

Noting the results of the United Nations conference on New Trends in Science and Technology: Implications for International Peace and Security, held at Sendai, Japan, from 16 to 19 April 1990, 1/ and recognizing, in this regard, the need for the scientific and policy communities to work together in dealing with the complex implications of technological change,

1. Takes note of the report of the Secretary-General entitled "Scientific and technological developments and their impact on international security"; 2/

2. Takes note also of the interim report of the Secretary-General 3/ submitted in pursuance of resolution 45/60 of 4 December 1990;

3. Fully agrees that:

(a) The international community needs to position itself better to follow the nature and direction of technological change;

(b) The United Nations can serve as a catalyst and a clearing-house for ideas to this purpose;

4. Requests the Secretary-General to continue to follow scientific and technological developments in order to make an assessment of emerging "new technologies" and to submit to the General Assembly at its forty-eighth session a framework for technology assessment guided, inter alia, by the criteria suggested in his report;

5. Decides to include in the provisional agenda of its forty-eighth session the item entitled "Scientific and technological developments and their impact on international security".

Recognizing that progress in the application of science and technology contributes substantially to the implementation of arms control and disarmament agreements, inter alia, in the fields of weapons disposal, military conversion and verification,

Recognizing also that norms or guidelines for the transfer of high technology with military applications should take into account legitimate requirements for the maintenance of international peace and security, while ensuring that they do not deny access to high-technology products, services and know-how for peaceful purposes,

Noting the interest of the international community in cooperation in the fields of disarmament-related science and technology and the transfer of high technology with military applications,

1. Calls upon the Disarmament Commission to intensify its work on agenda item 7 and to submit as soon as possible specific recommendations on this matter to the General Assembly;

[on the report of the First Committee (A/47/683)]

47/46. Amendment of the Treaty Banning Nuclear Weapon Tests in the Atmosphere, in Outer Space and under Water

The General Assembly,

Recalling its resolutions 44/106 of 15 December 1989, 45/50 of 4 December 1990 and 46/28 of 6 December 1991,

Reiterating its conviction that a comprehensive nuclear-test-ban treaty is the highest-priority measure for the cessation of the nuclear-arms race and for the achievement of the objective of nuclear disarmament,

Recalling the central role of the United Nations in the field of nuclear disarmament and in particular in the cessation of all nuclear-test explosions, as well as the persistent efforts of non-governmental organizations in the achievement of a comprehensive nuclear-test-ban treaty,

Conscious of the growing environmental concerns throughout the world and of the past and potential negative effects of nuclear testing on the environment,

Recalling its resolution 1910 (XVIII) of 27 November 1963, in which it noted with approval the Treaty Banning Nuclear Weapon Tests in the Atmosphere, in Outer Space and under Water, 1/ signed on 5 August 1963, and requested the Conference of the Eighteen-Nation Committee on Disarmament 2/ to continue with a sense of urgency its negotiations to achieve the objectives set forth in the preamble to the Treaty,

---

1/ United Nations, Treaty Series, vol. 480, No. 6964.

2/ The Committee on Disarmament was redesignated the Conference on Disarmament as from 7 February 1984.

/...

Recalling also that more than one third of the parties to the Treaty requested the Depositary Governments to convene a conference to consider an amendment that would convert the Treaty into a comprehensive test-ban treaty,

Recalling further that a substantive session of the Amendment Conference of the States Parties to the Treaty Banning Nuclear Weapon Tests in the Atmosphere, in Outer Space and under Water was held in New York from 7 to 18 January 1991,

Reiterating its conviction that the Amendment Conference will facilitate the attainment of the objectives set forth in the Treaty and thus serve to strengthen it,

Noting with satisfaction the unilateral nuclear-test moratoria announced by several nuclear-weapon States,

Recalling its recommendation that arrangements be made to ensure that intensive efforts continue, under the auspices of the Amendment Conference, until a comprehensive nuclear-test-ban treaty is achieved,

Recalling also the decision adopted by the Amendment Conference 3/ to the effect that, since further work needed to be undertaken on certain aspects of a comprehensive test-ban treaty, especially those with regard to verification of compliance and possible sanctions against non-compliance, the President of the Conference should conduct consultations with a view to achieving progress on those issues and to resuming the work of the Conference at an appropriate time,

Welcoming the ongoing consultations being conducted by the President of the Amendment Conference,

1. Notes the ongoing consultations being conducted by the President of the Amendment Conference of the States Parties to the Treaty Banning Nuclear Weapon Tests in the Atmosphere, in Outer Space and under Water and the special meeting of States parties of a brief duration to be held in New York in the second quarter of 1993 to review the developments on the issue of nuclear testing, with a view to examining the feasibility of resuming the work of the Amendment Conference later that year;

2. Calls upon all parties to the Treaty Banning Nuclear Weapon Tests in the Atmosphere, in Outer Space and under Water to participate in, and to contribute to the success of, the Amendment Conference for the achievement of a comprehensive nuclear-test ban at an early date, as an indispensable measure towards implementation of their undertakings in the preamble to the Treaty;

3. Urges all States, especially those nuclear-weapon States which have not yet done so, to adhere to the Treaty;

4. Recommends that arrangements should be made to ensure the fullest possible participation of non-governmental organizations in the Amendment Conference;

3/ PTBT/CONF/13/Rev.1, para. 26.

5. Reiterates its conviction that, pending the conclusion of a comprehensive nuclear-test-ban treaty, the nuclear-weapon States should suspend all nuclear-test explosions through an agreed moratorium or unilateral moratoria;

6. Stresses once again the importance of ensuring adequate coordination among the various negotiating forums dealing with a comprehensive nuclear-test-ban treaty;

7. Decides to include in the provisional agenda of its forty-eighth session the item entitled "Amendment of the Treaty Banning Nuclear Weapon Tests in the Atmosphere, in Outer Space and under Water".

RESOLUTION ADOPTED BY THE GENERAL ASSEMBLY

[on the report of the First Committee (A/47/684)]

47/47. Comprehensive nuclear-test-ban treaty

The General Assembly,

Recalling previous resolutions that identify the complete cessation of nuclear-weapon tests and a comprehensive test ban as one of the priority objectives in the field of disarmament,

Convinced that a nuclear war cannot be won and must never be fought,

Welcoming the improved relationship between the Russian Federation and the United States of America and their consequent announcements of significant measures, including unilateral steps, which could signal the reversal of the nuclear-arms race,

Welcoming also the Treaty between the United States of America and the Union of Soviet Socialist Republics on the Reduction and Limitation of Strategic Offensive Arms, signed on 31 July 1991, and the signing of a protocol to this Treaty in which Belarus, Kazakhstan, the Russian Federation, Ukraine and the United States of America undertake to give effect to the Treaty,

Welcoming further the Joint Understanding of 17 June 1992 between the Russian Federation and the United States of America on further reductions in their strategic offensive arms,

Welcoming the decision taken by France to suspend its testing of nuclear weapons for 1992,

Endorsing the call made by France and by the Russian Federation on the other nuclear Powers to suspend their nuclear tests,

/...

Welcoming also in addition the recent decision of the United States of America to implement a testing moratorium accompanied by a plan for achieving a multilateral, comprehensive ban on the testing of nuclear weapons,

Welcoming further the decision of the Russian Federation to extend its earlier-announced nuclear-testing moratorium,

Convinced that an end to nuclear testing by all States in all environments for all time is an essential step in order to prevent the qualitative improvement and development of nuclear weapons and their further proliferation and to contribute, along with other concurrent efforts to reduce nuclear arms, to the eventual elimination of nuclear weapons,

Noting the concerns expressed about the environmental and health risks associated with underground nuclear testing, as brought out in the Expert Study on Questions Related to a Comprehensive Test Ban Treaty in CD/1167 of 14 August 1992, which noted, inter alia, the environmental benefits and economic savings to be derived from a complete ban on nuclear testing,

Convinced also that the most effective way to achieve an end to nuclear testing is through the conclusion, at an early date, of a verifiable, comprehensive nuclear-test-ban treaty that will attract the adherence of all States,

Taking into account the undertakings by the original parties to the 1963 Treaty Banning Nuclear Weapon Tests in the Atmosphere, in Outer Space and under Water 1/ to seek to achieve the early discontinuance of all test explosions of nuclear weapons for all time, and also noting the reiteration of this commitment in the 1968 Treaty on the Non-Proliferation of Nuclear Weapons, 2/

Noting with satisfaction the work being undertaken within the Conference on Disarmament by the Ad Hoc Group of Scientific Experts to Consider International Cooperative Measures to Detect and Identify Seismic Events, and in this context welcoming the results of the second technical test concerning the global exchange and analysis of seismic data, which will permit the system to be redesigned in the light of this experience,

Recalling that the Amendment Conference of States Parties to the Treaty Banning Nuclear Weapon Tests in the Atmosphere, in Outer Space and under Water was held in New York from 7 to 18 January 1991,

Expressing its disappointment that the Conference on Disarmament was unable to re-establish the Ad Hoc Committee on item 1 of its agenda, entitled "Nuclear test ban", despite the improved political climate,

1. Reaffirms its conviction that a treaty to achieve the prohibition of all nuclear-test explosions by all States in all environments for all time is a matter of priority which would constitute an essential step in order to prevent the qualitative improvement and development of nuclear weapons and their further proliferation, and which would contribute to the process of nuclear disarmament;

1/ United Nations, Treaty Series, vol. 480, No. 6964.

2/ Ibid., vol. 729, No. 10485.

2. Urges, therefore, all States to seek to achieve the early discontinuance of all nuclear-test explosions for all time;

3. Urges:

(a) The nuclear-weapon States to agree promptly to appropriate verifiable and militarily significant interim measures, with a view to concluding a comprehensive nuclear-test-ban treaty;

(b) Those nuclear-weapon States which have not yet done so to adhere to the Treaty Banning Nuclear Weapon Tests in the Atmosphere, in Outer Space and under Water;

4. Reaffirms the particular responsibilities of the Conference on Disarmament in the negotiation of a comprehensive nuclear-test-ban treaty, and in this context urges the re-establishment of the Ad Hoc Committee on a Nuclear Test Ban in 1993;

5. Requests the Conference on Disarmament, in this context, to intensify its substantive work begun in 1990 on specific and interrelated test-ban issues, including structure and scope and verification and compliance, taking also into account all relevant proposals and future initiatives;

6. Urges the Conference on Disarmament:

(a) To take into account the progress achieved by the Ad Hoc Group of Scientific Experts to Consider International Cooperative Measures to Detect and Identify Seismic Events, including the experience gained from the technical test concerning the global exchange and analysis of seismic data, and other relevant initiatives;

(b) To continue efforts to establish, with the widest possible participation, an international seismic monitoring network with a view to developing further a system for the effective monitoring and verification of compliance with a comprehensive nuclear-test-ban treaty;

(c) To investigate other measures to monitor and verify compliance with such a treaty, including on-site inspections, satellite monitoring and an international network to monitor atmospheric radioactivity;

7. Calls upon the Conference on Disarmament to report to the General Assembly at its forty-eighth session on progress made, including its recommendations on how the objectives of the Ad Hoc Committee on item 1 of its agenda, entitled "Nuclear test ban", should be carried forward most effectively towards achieving a comprehensive test-ban treaty;

8. Decides to include in the provisional agenda of its forty-eighth session the item entitled "Comprehensive nuclear-test-ban treaty".

Reaffirming the inalienable right of all States to acquire and develop nuclear energy for peaceful purposes,

Emphasizing also the need for appropriate measures on the question of the prohibition of military attacks on nuclear facilities,

Bearing in mind the consensus reached by the General Assembly at its thirty-fifth session that the establishment of a nuclear-weapon-free zone in the region of the Middle East would greatly enhance international peace and security,

Desirous of building on that consensus so that substantial progress can be made towards establishing a nuclear-weapon-free zone in the region of the Middle East,

Welcoming all initiatives leading to general and complete disarmament, including in the region of the Middle East, and in particular on the establishment therein of a zone free of weapons of mass destruction, including nuclear weapons,

Believing that the establishment of a nuclear-weapon-free zone in South Asia, as in other regions, will assist in the strengthening of the security of the States of the region against the use or threat of use of nuclear weapons,

Taking note with appreciation of the declarations issued at the highest level by Governments of South Asian States that are developing their peaceful nuclear programmes, reaffirming their undertaking not to acquire or manufacture nuclear weapons and to devote their nuclear programmes exclusively to the economic and social advancement of their peoples,

Welcoming the recent proposal for the conclusion of a bilateral or regional nuclear-test-ban agreement in South Asia,

Taking note of the proposal to convene, under the auspices of the United Nations, a conference on nuclear non-proliferation in South Asia as soon as possible, with the participation of the regional and other concerned States,

47/50. Conclusion of effective international arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons

The General Assembly,

Bearing in mind the need to allay the legitimate concern of the States of the world with regard to ensuring lasting security for their peoples,

Convinced that nuclear weapons pose the greatest threat to mankind and to the survival of civilization,

Welcoming the progress achieved in recent years in both nuclear and conventional disarmament,

Noting that, despite recent progress in the field of nuclear disarmament, further efforts are necessary towards the achievement of the goal of general and complete disarmament under effective international control,

Also convinced that nuclear disarmament and the complete elimination of nuclear weapons are essential to remove the danger of nuclear war,

Determined strictly to abide by the relevant provisions of the Charter of the United Nations on the non-use of force or threat of force,

Recognizing that the independence, territorial integrity and sovereignty of non-nuclear-weapon States need to be safeguarded against the use or threat of use of force, including the use or threat of use of nuclear weapons,

Considering that, until nuclear disarmament is achieved on a universal basis, it is imperative for the international community to develop effective measures and arrangements to ensure the security of non-nuclear-weapon States against the use or threat of use of nuclear weapons from any quarter,

...

Recognizing also that effective measures and arrangements to assure the non-nuclear-weapon States against the use or threat of use of nuclear weapons can contribute positively to the prevention of the spread of nuclear weapons,

Bearing in mind paragraph 59 of the Final Document of the Tenth Special Session of the General Assembly, 1/ the first special session devoted to disarmament, in which it urged the nuclear-weapon States to pursue efforts to conclude, as appropriate, effective arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons, and desirous of promoting the implementation of the relevant provisions of the Final Document,

Recalling the relevant parts of the special report of the Committee on Disarmament, 2/ submitted to the General Assembly at its twelfth special session, 3/ the second special session devoted to disarmament, and of the special report of the Conference on Disarmament submitted to the Assembly at its fifteenth special session, 4/ the third special session devoted to disarmament, as well as of the report of the Conference on its 1992 session, 5/

Recalling also paragraph 12 of the Declaration of the 1980s as the Second Disarmament Decade, contained in the annex to its resolution 35/46 of 3 December 1980, which states, inter alia, that all efforts should be exerted by the Committee on Disarmament urgently to negotiate with a view to reaching agreement on effective international arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons,

Noting the in-depth negotiations undertaken in the Conference on Disarmament and its Ad Hoc Committee on Effective International Arrangements to Assure Non-Nuclear-Weapon States against the Use or Threat of Use of Nuclear Weapons, with a view to reaching agreement on this item,

Taking note of the proposals submitted under that item in the Conference on Disarmament, including the drafts of an international convention,

Taking note also of the decision of the Tenth Conference of Heads of State or Government of Non-Aligned Countries, held at Jakarta from 1 to 6 September 1992, 6/ as well as the relevant recommendations of the Organization of the Islamic Conference reiterated in the Final Communiqué of the Twentieth Islamic Conference of Foreign Ministers, held at Istanbul from 4 to 8 August 1991, 7/ calling upon the Conference on Disarmament to reach an urgent agreement on an international convention to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons,

Taking note further of the unilateral declarations made by all nuclear-weapon States on their policies of non-use or non-threat of use of nuclear weapons against non-nuclear-weapon States,

Noting the support expressed in the Conference on Disarmament and in the General Assembly for the elaboration of an international convention to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons, as well as the difficulties pointed out in evolving a common approach acceptable to all,

Noting also the greater willingness to overcome the difficulties encountered in previous years,

Recalling its relevant resolutions adopted in previous years, in particular resolutions 45/54 of 4 December 1990 and 46/32 of 6 December 1991,

1. Reaffirms the urgent need to reach an early agreement on effective international arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons;

2. Notes with satisfaction that in the Conference on Disarmament there is no objection, in principle, to the idea of an international convention to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons, although the difficulties as regards evolving a common approach acceptable to all have also been pointed out;

3. Appeals to all States, especially the nuclear-weapon States, to work actively towards an early agreement on a common approach and, in particular, on a common formula that could be included in an international instrument of a legally binding character;

4. Recommends that further intensive efforts should be devoted to the search for such a common approach or common formula and that the various alternative approaches, including, in particular, those considered in the Conference on Disarmament, should be further explored in order to overcome the difficulties;

5. Recommends also that the Conference on Disarmament should actively continue intensive negotiations with a view to reaching early agreement and concluding effective international arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons, taking into account the widespread support for the conclusion of an international convention and giving consideration to any other proposals designed to secure the same objective;

RESOLUTION ADOPTED BY THE GENERAL ASSEMBLY

[on the report of the First Committee (A/47/688)]

47/51. Prevention of an arms race in outer space

The General Assembly,

Recognizing the common interest of all mankind in the exploration and use of outer space for peaceful purposes,

Reaffirming the will of all States that the exploration and use of outer space, including the Moon and other celestial bodies, shall be for peaceful purposes, shall be carried out for the benefit and in the interest of all countries, irrespective of their degree of economic or scientific development, and shall be the province of all mankind,

Reaffirming also provisions of articles III and IV of the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies, 1/

Recalling the obligation of all States to observe the provisions of the Charter of the United Nations regarding the use or threat of use of force in their international relations, including in their space activities,

Reaffirming further paragraph 80 of the Final Document of the Tenth Special Session of the General Assembly, 2/ in which it is stated that in order to prevent an arms race in outer space further measures should be taken and appropriate international negotiations held in accordance with the spirit of the Treaty,

---

1/ Resolution 2222 (XXI), annex.

2/ Resolution S-10/2.

/...

Recalling also its previous resolutions on this issue and the Final Declaration adopted by the Tenth Conference of Heads of State or Government of Non-Aligned Countries, held at Jakarta from 1 to 6 September 1992, 3/ and taking note of the proposals submitted to the General Assembly at its tenth special session and at its regular sessions, and of the recommendations made to the competent organs of the United Nations and to the Conference on Disarmament,

Recognizing the grave danger for international peace and security of an arms race in outer space and of developments contributing to it,

Emphasizing the paramount importance of strict compliance with existing arms limitation and disarmament agreements relevant to outer space, including bilateral agreements, and with the existing legal regime concerning the use of outer space,

Considering that wide participation in the legal regime applicable to outer space could contribute to enhancing its effectiveness,

Noting that bilateral negotiations, begun in 1985 between the Union of Soviet Socialist Republics and the United States of America, have continued with the declared objective of working out effective agreements aimed, inter alia, at preventing an arms race in outer space,

Welcoming the re-establishment of the Ad Hoc Committee on the Prevention of an Arms Race in Outer Space at the 1992 session of the Conference on Disarmament, in the exercise of the negotiating responsibilities of this sole multilateral body on disarmament, to continue to examine and identify, through substantive and general consideration, issues relevant to the prevention of an arms race in outer space,

Noting also that the Ad Hoc Committee on the Prevention of an Arms Race in Outer Space, taking into account its previous efforts since its establishment in 1985 and seeking to enhance its functioning in qualitative terms, continued the examination and identification of various issues, existing agreements and existing proposals, as well as future initiatives relevant to the prevention of an arms race in outer space, 4/ and that this contributed to a better understanding of a number of problems and to a clearer perception of the various positions,

Emphasizing the mutually complementary nature of bilateral and multilateral efforts in the field of preventing an arms race in outer space, and hoping that concrete results will emerge from these efforts as soon as possible,

Convinced that further measures should be examined in the search for effective and verifiable bilateral and multilateral agreements in order to prevent an arms race in outer space,

3/ See A/47/675-S/24816, annex.

4/ See Official Records of the General Assembly, Forty-seventh Session, Supplement No. 27 (A/47/27), para. 76.

Stressing that the growing use of outer space increases the need for greater transparency and better information on the part of the international community,

Recalling in this context its resolution 45/55 B of 4 December 1990 which, inter alia, reaffirmed the importance of confidence-building measures as means conducive to ensuring the attainment of the objective of the prevention of an arms race in outer space,

Conscious of the benefits of confidence- and security-building measures in the military field,

1. Reaffirms the importance and urgency of preventing an arms race in outer space and the readiness of all States to contribute to that common objective, in conformity with the provisions of the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies;

2. Reaffirms its recognition, as stated in the report of the Ad Hoc Committee on the Prevention of an Arms Race in Outer Space, that the legal regime applicable to outer space by itself does not guarantee the prevention of an arms race in outer space, that this legal regime plays a significant role in the prevention of an arms race in that environment, that there is a need to consolidate and reinforce that regime and enhance its effectiveness, and that it is important strictly to comply with existing agreements, both bilateral and multilateral; 5/

3. Emphasizes the necessity of further measures with appropriate and effective provisions for verification to prevent an arms race in outer space;

4. Calls upon all States, in particular those with major space capabilities, to contribute actively to the objective of the peaceful use of outer space and of the prevention of an arms race in outer space and to refrain from actions contrary to that objective and to the relevant existing treaties in the interest of maintaining international peace and security and promoting international cooperation;

5. Reiterates that the Conference on Disarmament, as the single multilateral disarmament negotiating forum, has the primary role in the negotiation of a multilateral agreement or agreements, as appropriate, on the prevention of an arms race in outer space in all its aspects;

6. Requests the Conference on Disarmament to consider as a matter of priority the question of preventing an arms race in outer space;

7. Also requests the Conference on Disarmament to intensify its consideration of the question of the prevention of an arms race in outer space in all its aspects, building upon areas of convergence and taking into account relevant proposals and initiatives, including those presented in the Ad Hoc Committee at the 1992 session of the Conference and at the forty-seventh session of the General Assembly;

5/ Ibid., para. 30 of the quoted text.

8. Further requests the Conference on Disarmament to re-establish an ad hoc committee with an adequate mandate at the beginning of its 1993 session and to continue building upon areas of convergence with a view to undertaking negotiations for the conclusion of an agreement or agreements, as appropriate, to prevent an arms race in outer space in all its aspects;

9. Recognizes, in this respect, the growing convergence of views on the elaboration of measures designed to strengthen transparency, confidence and security in the uses of outer space;

10. Urges the Russian Federation and the United States of America to pursue intensively their bilateral negotiations in a constructive spirit with a view to reaching early agreement for preventing an arms race in outer space, and to advise the Conference on Disarmament periodically of the progress of their bilateral sessions so as to facilitate its work;

11. Decides to include in the provisional agenda of its forty-eighth session the item entitled "Prevention of an arms race in outer space".

Prohibition of the development, production, stockpiling and use of radiological weapons

The General Assembly,

Recalling its resolution 46/36 E of 6 December 1991,

1. Takes note of the part of the report of the Conference on Disarmament on its 1992 session that deals with the question of radiological weapons, in particular the report of the Ad Hoc Committee on Radiological Weapons; 2/

2. Recognizes that in 1992 the Ad Hoc Committee made a further contribution to the clarification of different approaches that continue to exist with regard to both of the important subjects under consideration;

3. Takes note also of the recommendation of the Conference on Disarmament that the Ad Hoc Committee on Radiological Weapons should be re-established at the beginning of its 1993 session and that it should be given guidance on reviewing the organization of its work with the aim of fulfilling its mandate;

4. Requests the Conference on Disarmament to continue its substantive negotiation on the subject with a view to the prompt conclusion of its work, taking into account all proposals presented to the Conference to this end and drawing upon the annexes to the report of the Ad Hoc Committee, the result of which should be submitted to the General Assembly at its forty-eighth session;

2/ Official Records of the General Assembly, Forty-seventh Session, Supplement No. 27 (A/47/27), para. 80.

Prohibition of the production of fissionable material for weapons purposes

The General Assembly,

Recalling its resolution 46/36 D of 6 December 1991 and previous resolutions, in which it requested the Conference on Disarmament, at an appropriate stage of the implementation of the Programme of Action set forth in section III of the Final Document of the Tenth Special Session of the General Assembly 3/ and of its work on the item entitled "Nuclear weapons in all aspects", to consider urgently the question of adequately verified cessation and prohibition of the production of fissionable material for nuclear weapons and other nuclear explosive devices and to keep the Assembly informed of the progress of that consideration,

Noting that the agenda of the Conference on Disarmament for 1992 included the item entitled "Nuclear weapons in all aspects" and that the programme of work of the Conference for all three parts of its 1992 session contained the item entitled "Cessation of the nuclear-arms race and nuclear disarmament", 4/

Recalling also the proposals and statements made in the Conference on Disarmament on those items, 5/

Welcoming the significant progress in reducing nuclear-weapon arsenals as evidenced by substantive bilateral agreements between the Russian Federation and the United States of America and unilateral undertakings by France, the Russian Federation, the United Kingdom of Great Britain and Northern Ireland and the United States towards the reduction in some of their nuclear-weapons programmes or of the numbers of nuclear weapons and their delivery systems as well as regarding the disposition of fissile material,

4/ See Official Records of the General Assembly, Forty-seventh Session, Supplement No. 27 (A/47/27), para. 6.

5/ Ibid., sect. III.A and B.

Welcoming also the recent decision by the United States not to produce plutonium or highly enriched uranium for nuclear explosive purposes,

Considering that the cessation of production of fissionable material for weapons purposes and the progressive conversion and transfer of stocks to peaceful uses would also be a significant step towards halting and reversing the nuclear-arms race,

Considering also that the prohibition of the production of fissionable material for nuclear weapons and other explosive devices would be an important measure in facilitating the prevention of the proliferation of nuclear weapons and explosive devices,

Aware of the potential hazards underlying any use of radioactive wastes that would constitute radiological warfare and its implications for regional and international security, and in particular for the security of developing countries,

Desirous of promoting the implementation of paragraph 76 of the Final Document of the Tenth Special Session of the General Assembly, 3/

Aware also of the consideration in the Conference on Disarmament during its 1992 session of the question of dumping of radioactive wastes,

Gravely concerned at the recently reported efforts to dump harmful wastes in Somalia,

Recalling its resolution 46/36 K of 6 December 1991, in which it requested the Conference on Disarmament to include in its report to the General Assembly at its forty-seventh session the progress recorded in the ongoing negotiations on this subject,

1. Takes note of the part of the report of the Conference on Disarmament relating to a future convention on the prohibition of radiological weapons; 12/

Second Review Conference of the Parties to the Convention on the Prohibition of Military or Any Other Hostile Use of Environmental Modification Techniques

The General Assembly,

Recalling its resolution 31/72 of 10 December 1976, in which it referred the Convention on the Prohibition of Military or Any Other Hostile Use of Environmental Modification Techniques to all States for their consideration, signature and ratification and expressed the hope for the widest possible adherence to the Convention,

Recalling also its resolution 46/36 A of 6 December 1991, in which it noted that a majority of States parties to the Convention had expressed their wish to convene the Second Review Conference of the Parties to the Convention in September 1992,

Welcoming the fact that States parties to the Convention met at Geneva from 14 to 18 September 1992 to review the operation of the Convention, with a view to ensuring that its purposes and provisions were being realized,

Having considered the Final Document of the Second Review Conference, 13/

Noting with satisfaction that the Review Conference confirmed that the obligations assumed under article I of the Convention had been faithfully observed by the States parties,

1. Notes the assessment by the Second Review Conference of the Parties to the Convention on the Prohibition of Military or Any Other Hostile Use of Environmental Modification Techniques that the Convention has been effective in preventing military or any other hostile use of any environmental modification techniques between States parties and that its provisions need to be kept under continuing review and examination in order to ensure their global effectiveness;

2. Welcomes the reaffirmation by the Review Conference of support for article II of the Convention and for the definition therein of the term "environmental modification techniques", which States parties to the Convention agree that, taken together with the Understandings relating to articles I and II, covers military or any other hostile use of any environmental modification techniques having widespread, long-lasting or severe effects as the means of destruction, damage or injury to any State party by another State party;

3. Notes with satisfaction the confirmation by the Review Conference that the military or any other hostile use of herbicides as an environmental modification technique in the meaning of article II is a method of warfare prohibited by article I if such use of herbicides upsets the ecological balance of a region, thus causing widespread, long-lasting or severe effects as the means of destruction, damage or injury to any other State party;

4. Calls upon all States to refrain from military or any other hostile use of any environmental modification techniques;

Regional disarmament

The General Assembly,

Recalling its resolutions 44/116 U and 44/117 B of 15 December 1989, 45/58 M of 4 December 1990 and 46/36 F of 6 December 1991,

Considering that the regional approach to disarmament is one of the most important means by which States can contribute to the strengthening of international security, arms limitation and disarmament,

Recognizing that the regional and global approaches complement each other and can be pursued simultaneously in the promotion of regional and international peace and security,

Convinced that disarmament can be carried out only in a climate of confidence based on mutual respect and aimed at ensuring better relations founded on justice, solidarity and cooperation,

Noting that the consumption of resources for potentially destructive purposes is in stark contrast to the need for social and economic development and that reduction in military expenditure following, inter alia, the conclusion of regional disarmament agreements could entail benefits in both the social and economic fields,

Considering that regional disarmament measures should be aimed at establishing a military balance at the lowest level while not diminishing the security of each State and at eliminating as a matter of priority the capability for large-scale offensive action and surprise attacks,

Noting also that disarmament measures in one region should not lead to increased arms transfers to other regions or extend the military imbalances and/or tensions from one area to other areas,

Considering also that confidence-building and transparency measures are essential elements in the implementation of regional disarmament,

Persuaded that verification measures are important to ensure compliance with regional agreements on arms control and disarmament,

1. Reaffirms that the regional approach to disarmament is one of the essential elements in the global efforts to strengthen international peace and security, arms limitation and disarmament;

2. Is convinced of the importance and effectiveness of regional disarmament measures taken at the initiative of States of the region and with the participation of all States concerned and taking into account the specific characteristics of each region, in that they can contribute to the security and stability of all States, in accordance with the principles of the Charter of the United Nations and in compliance with international law and existing treaties;

3. Affirms that comprehensive political and peaceful settlement of regional conflicts and disputes can contribute to the reduction of tension and the promotion of regional peace, security and stability as well as of arms limitation and disarmament;

4. Stresses the importance of confidence-building measures, including objective information on military matters, in ensuring the success of this process;

5. Affirms also that multifaceted cooperation among States in the region, especially encompassing political, economic, social and cultural fields, can be conducive to the strengthening of regional security and stability;

6. Notes with satisfaction the important progress made in various regions of the world through the adoption of arms limitation, peace, security and cooperation agreements, including those related to the prohibition of weapons of mass destruction, and encourages States in the regions concerned to continue implementing these agreements;

7. Recognizes the useful role played by the regional centres of the United Nations;

8. Encourages States of the same region to examine the possibility of creating, on their own initiative, regional mechanisms and/or institutions for the establishment of measures in the framework of an effort of regional disarmament or for the prevention and the peaceful settlement of disputes and conflicts with the assistance, if requested, of the United Nations;

9. Believes that regional initiatives should enjoy the support of all States of the region concerned and the respect of those outside that region;

10. Invites and encourages all States to conclude, whenever possible, agreements on arms limitation and confidence-building measures at the regional level, including those conducive to avoiding the proliferation of weapons of mass destruction.

Study on defensive security concepts and policies

The General Assembly,

Recalling its resolution 45/58 O of 4 December 1990, in which it requested the Secretary-General, with the assistance of qualified governmental experts, to undertake a study on defensive security concepts and policies,

Noting with satisfaction positive developments in the world, reflecting a trend towards reducing the significance of military power in ensuring national policy aims,

Realizing that threats to international peace and security caused by recurring acts of aggression underline the need for intensified efforts towards elaborating a broad range of peaceful means for the prevention of conflicts, including confidence-building measures,

Noting that defensive security concepts as well as initiatives on preventive diplomacy contribute to the strengthening of international peace and security,

Considering the importance of the development of an international dialogue on defensive security policies for the promotion of security and stability in the world,

Having examined the report of the Secretary-General containing the study on defensive security concepts and policies, 19/

1. Takes note of the study on defensive security concepts and policies;

Confidence- and security-building measures and conventional disarmament in Europe

The General Assembly,

Determined to achieve progress in disarmament,

Stressing that confidence-building and disarmament measures have a positive impact on international security,

Noting the work accomplished in 1992 by the Disarmament Commission on its agenda items entitled "Objective information on military matters" and "Regional approach to disarmament within the context of global security", 21/

Recalling its resolutions 43/75 P of 7 December 1988, 44/116 I of 15 December 1989, 45/58 I of 4 December 1990 and 46/36 G of 6 December 1991,

Reaffirming the great importance of increasing security and stability in Europe through the establishment of a stable, secure and verifiable balance of conventional armed forces at lower levels, as well as through increased openness and predictability of military activities,

---

20/ Ibid., annex, para. 278.

21/ See Official Records of the General Assembly, Forty-seventh Session, Supplement No. 42 (A/47/42), paras. 28 and 30.

Considering that, along with the new political situation in Europe, the positive results of the negotiations on confidence- and security-building measures, as well as those on conventional armaments and forces, both within the framework of the Conference on Security and Cooperation in Europe, have considerably increased confidence and security in Europe, thereby contributing to international peace and security,

Welcoming the new measures agreed upon in these fields among the States signatories of the Treaty on Conventional Armed Forces in Europe and among the States participating in the Conference on Security and Cooperation in Europe,

Expressing the hope that the implementation of these decisions will contribute to the prevention or settlement of crises in Europe, including those due to acts of aggression or the use of military force in some parts of the continent,

1. Notes with satisfaction the progress achieved so far in the process of disarmament and the strengthening of confidence and security in Europe;

2. Welcomes in particular:

(a) The decision of the States signatories of the Treaty on Conventional Armed Forces in Europe to implement this Treaty, as well as the recent Concluding Act of the Negotiations on Personnel Strength of Conventional Armed Forces in Europe;

(c) The adoption, by the States participating in the Conference on Security and Cooperation in Europe, of a new significant set of confidence- and security-building measures;

3. Invites all States to consider the possibility of taking appropriate measures with a view to reducing the risk of confrontation and strengthening security, taking due account of their specific regional conditions.

Regional disarmament

The General Assembly,

Recalling its resolutions 45/58 P of 4 December 1990 and 46/36 I of 6 December 1991 on regional disarmament,

Believing that the efforts of the international community to move towards the ideal of general and complete disarmament are guided by the inherent human desire for genuine peace and security, the elimination of the danger of war and the release of economic, intellectual and other resources for peaceful pursuits,

Affirming the abiding commitment of all States to the purposes and principles enshrined in the Charter of the United Nations in the conduct of their international relations,

Noting that essential guidelines for progress towards general and complete disarmament were adopted at the tenth special session of the General Assembly, 3/

Welcoming the prospects of genuine progress in the field of disarmament engendered in recent years as a result of negotiations between the two super-Powers,

Taking note of the recent proposals for disarmament and nuclear non-proliferation at regional and subregional levels,

Recognizing the importance of confidence-building measures for regional and international peace and security,

Convinced that endeavours by countries to promote regional disarmament, taking into account the specific characteristics of each region and in accordance with the principle of undiminished security at the lowest level of armaments, would enhance the security of smaller States and would thus contribute to international peace and security by reducing the risk of regional conflicts,

1. Stresses that sustained efforts are needed, within the framework of the Conference on Disarmament and under the umbrella of the United Nations, to make progress on the entire range of disarmament issues;

2. Affirms that global and regional approaches to disarmament complement each other and should therefore be pursued simultaneously to promote regional and international peace and security;

3. Calls upon States to conclude agreements, wherever possible, for nuclear non-proliferation, disarmament and confidence-building measures at regional and subregional levels;

4. Welcomes the initiatives towards disarmament, nuclear non-proliferation and security undertaken by some countries at regional and subregional levels;

5. Supports and encourages efforts aimed at promoting confidence-building measures at regional and subregional levels in order to ease regional tensions and to further disarmament and nuclear non-proliferation measures at regional and subregional levels;

Bilateral nuclear-arms negotiations and nuclear disarmament

The General Assembly,

Recalling its previous relevant resolutions,

Recognizing the fundamental changes that have taken place with respect to international security, which have permitted agreements on deep reductions in the nuclear armaments of the States possessing the largest inventories of such weapons,

Mindful that it is the responsibility and obligation of all States to contribute to the process of the relaxation of international tension and to the strengthening of international peace and security,

Stressing the importance of strengthening international peace and security through disarmament,

Emphasizing that nuclear disarmament remains one of the principal tasks of our times,

Welcoming the steps that have already been taken by those States to begin the process of reducing the number of nuclear weapons and removing such weapons from a deployed status,

Noting also the new climate of relations between the United States of America and States of the former Soviet Union, which permits them to intensify their cooperative efforts to ensure the safety, security and environmentally sound destruction of nuclear weapons,

Urging that further cooperation be undertaken to accelerate the implementation of agreements and unilateral decisions relating to nuclear disarmament and nuclear-arms reductions,

Welcoming also the reductions made by other nuclear-weapon States in some of their nuclear-weapon programmes, and encouraging all nuclear-weapon States to consider appropriate measures relating to nuclear disarmament,

Affirming that bilateral and multilateral negotiations on disarmament should facilitate and complement each other,

1. Expresses its satisfaction at the continued implementation of the treaty that was concluded between the former Union of Soviet Socialist Republics and the United States of America on the elimination of their intermediate-range and shorter-range missiles, 23/ in particular at the completion by the parties of the destruction of all their declared missiles subject to elimination under the treaty;

2. Welcomes the signing of the Treaty on the Reduction and Limitation of Strategic Offensive Arms in Moscow on 31 July 1991, and the accompanying protocol that was signed in Lisbon on 23 May 1992, and urges the parties to take the steps necessary to bring this Treaty and the accompanying protocol into force at the earliest possible date;

3. Also welcomes the unilateral decisions announced by the President of the United States of America and similar unilateral steps announced by the former Union of Soviet Socialist Republics and subsequently by the President of the Russian Federation to reduce significantly the size and nature of nuclear deployments worldwide, to eliminate certain nuclear weapons and to enhance stability;

4. Further welcomes the Joint Understanding on Further Reductions in Strategic Offensive Arms between the United States of America and the Russian Federation that was announced in Washington on 17 June 1992, and urges that the early conversion of this Joint Understanding into a formal treaty be completed;

5. Encourages the United States of America, the Russian Federation, Belarus, Kazakhstan and Ukraine to continue their cooperative efforts aimed at eliminating nuclear weapons and strategic offensive arms on the basis of existing agreements, and welcomes the contributions that other States are making to such cooperation as well;

6. Further encourages and supports the Russian Federation and the United States of America in their efforts to reduce their nuclear armaments and to continue to give these efforts the highest priority in order to contribute to the objective of the elimination of nuclear weapons;

23/ The United Nations Disarmament Yearbook, vol. 12, 1987 (United Nations publication, Sales No. E.88.IX.2), appendix VII.

7. Invites the Russian Federation and the United States of America to keep other States Members of the United Nations duly informed of progress in their discussions and in the implementation of their strategic offensive arms agreements and unilateral decisions.

Noting that the Treaty of Amity and Cooperation in South-East Asia, 6/ signed at Bali on 24 February 1976, which came into force on 15 July 1976 in respect of the Republic of Indonesia, Malaysia, the Republic of the Philippines, the Republic of Singapore and the Kingdom of Thailand, and on 7 January 1984 in respect of Brunei Darussalam, was registered with the United Nations on 20 October 1976,

Convention on the Prohibition of the Use of Nuclear Weapons

The General Assembly,

Convinced that the existence and use of nuclear weapons pose the greatest threat to the survival of mankind,

Convinced also that nuclear disarmament is the only ultimate guarantee against the use of nuclear weapons,

Convinced further that a multilateral agreement prohibiting the use or threat of use of nuclear weapons should strengthen international security and contribute to the climate for negotiations leading to the ultimate elimination of nuclear weapons,

Welcoming the agreement reached between the Russian Federation and the United States of America in June 1992 to reduce their warhead stockpiles to a maximum of 3,000 for the Russian Federation and 3,500 for the United States of America by the year 2003,

Conscious that the recent steps taken by the Russian Federation and the United States of America towards a reduction of their nuclear weapons and the improvement in the international climate can contribute towards the goal of complete elimination of nuclear weapons,

Recalling that in paragraph 58 of the Final Document of the Tenth Special Session of the General Assembly, 2/ it is stated that all States should actively participate in efforts to bring about conditions in international relations among States in which a code of peaceful conduct of nations in international affairs could be agreed upon and that would preclude the use or threat of use of nuclear weapons,

Reaffirming that the use of nuclear weapons would be a violation of the Charter of the United Nations and a crime against humanity, as declared in its resolutions 1653 (XVI) of 24 November 1961, 33/71 B of 14 December 1978, 34/83 G of 11 December 1979, 35/152 D of 12 December 1980 and 36/92 I of 9 December 1981,

Noting with regret that the Conference on Disarmament, during its 1992 session, was not able to undertake negotiations with a view to achieving agreement on an international convention prohibiting the use or threat of use of nuclear weapons under any circumstances, taking as a basis the text annexed to General Assembly resolution 46/37 D of 6 December 1991,

1. Reiterates its request to the Conference on Disarmament to commence negotiations, as a matter of priority, in order to reach agreement on an international convention prohibiting the use or threat of use of nuclear weapons under any circumstances, taking as a basis the draft Convention on the Prohibition of the Use of Nuclear Weapons annexed to the present resolution;

2. Also requests the Conference on Disarmament to report to the General Assembly on the results of those negotiations.

World Disarmament Campaign

The General Assembly,

Recalling its decision taken in 1982 at its twelfth special session, the second special session devoted to disarmament, by which the World Disarmament Campaign was launched,

Recalling also its various resolutions on the subject, including resolution 46/37 A of 6 December 1991,

Having examined the reports of the Secretary-General of 8 October 1992 on the implementation of the World Disarmament Campaign, 8/ and of 31 July 1992 on the Advisory Board on Disarmament Matters relating to the implementation of the World Disarmament Campaign, 9/ as well as the Final Act of the Tenth United Nations Pledging Conference for the Campaign, 10/ held on 30 October 1992,

Noting with appreciation the contributions that Member States have already made to the Campaign,

1. Welcomes the report of the Secretary-General of 8 October 1992 on the World Disarmament Campaign;

2. Commends the Secretary-General for his efforts to make effective use of the resources available to him in disseminating as widely as possible information on arms limitation and disarmament to elected officials, the media, non-governmental organizations, educational communities and research institutes, and in carrying out an active seminar and conference programme;

3. Notes with appreciation the contributions to the efforts of the Campaign by the United Nations information centres and the regional centres for disarmament;

4. Decides that the World Disarmament Campaign shall be known hereafter as the "United Nations Disarmament Information Programme" and the World Disarmament Campaign Voluntary Trust Fund as the "Voluntary Trust Fund for the United Nations Disarmament Information Programme";

5. Recommends that the Programme should further focus its efforts:

(a) To inform, to educate and to generate public understanding of the importance of and support for multilateral action, including action by the United Nations and the Conference on Disarmament, in the field of arms limitation and disarmament, in a factual, balanced and objective manner;

(b) To facilitate unimpeded access to and an exchange of information on ideas between the public sector and public interest groups and organizations, and to provide an independent source of balanced and factual information that takes into account a range of views to help further an informed debate on arms limitation, disarmament and security;

(c) To organize meetings to facilitate exchanges of views and information between governmental and non-governmental sectors and between governmental and other experts in order to facilitate the search for common ground;

6. Invites all Member States to contribute to the Voluntary Trust Fund for the United Nations Disarmament Information Programme;

8/ A/47/469.

9/ A/47/354.

10/ A/CONF.161/1.

7. Commends the Secretary-General for supporting the efforts of universities, other academic institutions and non-governmental organizations active in the educational field in widening the world-wide availability of disarmament education, and invites him to continue to support and cooperate with, without cost to the regular budget of the United Nations, educational institutions and non-governmental organizations engaged in such efforts;

8. Decides that at its forty-eighth session there should be an eleventh United Nations Pledging Conference for the United Nations Disarmament Information Programme, and expresses the hope that on that occasion all those Member States that have not yet announced any voluntary contributions will do so, bearing in mind the objectives of the Third Disarmament Decade and the need to ensure its success;

9. Requests the Secretary-General to submit to the General Assembly at its forty-eighth session a report covering both the implementation of the activities of the Programme by the United Nations system during 1993 and the activities of the Programme contemplated by the system for 1994;

Nuclear-arms freeze

The General Assembly,

Recalling that, in the Final Document of the Tenth Special Session of the General Assembly, 2/ the first special session devoted to disarmament, adopted in 1978 and unanimously and categorically reaffirmed in 1982 during the twelfth special session of the General Assembly, 3/ the second special session devoted to disarmament, the Assembly expressed deep concern over the threat to the very survival of mankind posed by the existence of nuclear weapons,

Reaffirming the goal of general and complete disarmament under effective international control,

Welcoming the new trends that have led to an improvement in the international security environment,

Welcoming also the announcements of the significant measures, including unilateral steps, taken by the Russian Federation and the United States of America, which could signal the cessation and reversal of the nuclear-arms race,

Welcoming further the Treaty between the United States of America and the Union of Soviet Socialist Republics on the Reduction and Limitation of Strategic Offensive Arms, signed on 31 July 1991, and the signing of a protocol to this Treaty in which Belarus, Kazakhstan, the Russian Federation, Ukraine and the United States of America have undertaken to give effect to the Treaty,

Welcoming the Joint Understanding of 17 June 1992 between the Russian Federation and the United States of America on further reductions in their strategic offensive arms, and expressing the hope that it will be followed by an agreement at an early date in this regard,

Welcoming in addition the moratoria on nuclear-weapon tests currently observed by France, the Russian Federation and the United States of America,

Convinced of the urgency of further negotiations for the substantial reduction and qualitative limitation of existing nuclear arms,

Considering that a nuclear-arms freeze, while not an end in itself, would constitute an effective step to prevent the qualitative improvement of existing nuclear weaponry during the period when the negotiations take place, and that it would at the same time reinforce the favourable environment for the conduct of negotiations to reduce and eventually eliminate nuclear weapons,

Convinced also that the undertakings derived from the freeze can be effectively verified,

Welcoming the unilateral steps taken by the nuclear-weapon States for the cessation of the production of highly enriched uranium for nuclear weapons and for the shutting down of reactors producing weapons-grade plutonium,

Noting with concern that all nuclear-weapon States have not so far taken any collective action in response to the call made in the relevant resolutions on the question of a nuclear-arms freeze,

Convinced further that the current international situation is most conducive to nuclear disarmament,

1. Urges the Russian Federation and the United States of America, as the two major nuclear-weapon States, to reach agreement on an immediate nuclear-arms freeze, which would, inter alia, provide for a simultaneous total stoppage of any production of nuclear weapons and a complete cut-off in the production of fissionable material for weapons purposes;

2. Calls upon all nuclear-weapon States to agree, through a joint declaration, to a comprehensive nuclear-arms freeze, whose structure and scope would be the following:

(a) It would embrace:

(i) A comprehensive test ban on nuclear weapons and on their delivery vehicles;

(ii) The complete cessation of the manufacture of nuclear weapons and of their delivery vehicles;

(iii) A ban on all further deployment of nuclear weapons and of their delivery vehicles;

(iv) The complete cessation of the production of fissionable material for weapons purposes;

(b) It would be subject to appropriate and effective measures and procedures of verification;

3. Requests once again the nuclear-weapon States to submit a joint report, or separate reports, to the General Assembly, prior to the opening of its forty-eighth session, on the implementation of the present resolution;

4. Decides to include in the provisional agenda of its forty-eighth session the item entitled "Nuclear-arms freeze".

Regional confidence-building measures

The General Assembly,

Recalling the purposes and principles of the United Nations and its primary responsibility for the maintenance of international peace and security in accordance with its Charter,

Bearing in mind the guidelines for general and complete disarmament adopted at its tenth special session, the first special session devoted to disarmament,

Recalling also its resolutions 43/78 H and 43/85 of 7 December 1988, 44/21 of 15 November 1989, 45/58 M of 4 December 1990 and 46/37 B of 6 December 1991,

Considering the importance and effectiveness of confidence-building measures taken at the initiative and with the participation of all States concerned and taking into account the specific characteristics of each region, in that they can contribute to regional disarmament and to international security, in accordance with the principles of the Charter of the United Nations,

Convinced that the resources released by disarmament, including regional disarmament, can be devoted to economic and social development and to the protection of the environment for the benefit of all peoples, in particular those of the developing countries,

Bearing in mind the establishment by the Secretary-General on 28 May 1992 of the Standing Advisory Committee on Security Questions in Central Africa, the purpose of which is to encourage arms limitation, disarmament, non-proliferation and development in the subregion,
